Superyacht umbrellas with centre support

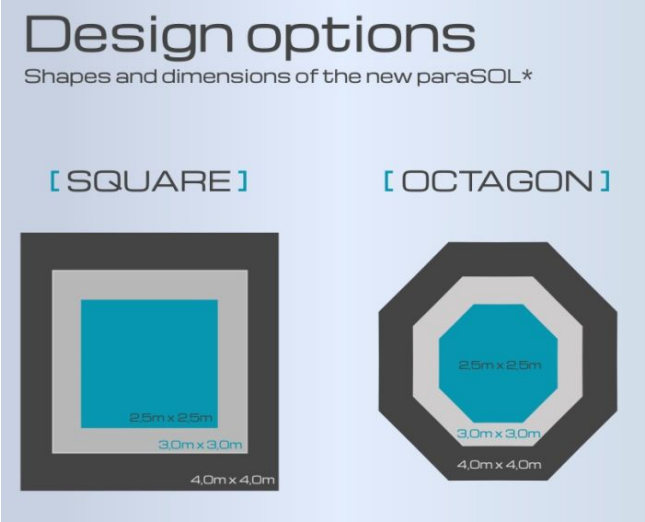

The paraSOL centerpole is the classic solution for flexible shading on superyacht decks. Its centrally supported design offers a clean, balanced appearance and makes it particularly suitable for tables, dining areas and compact deck layouts where a symmetrical shade solution is preferred.

The lightweight construction with polished stainless steel and carbon components ensures easy handling, while the high-quality fabric cover can be selected from Reckmann’s current PVC or acrylic collections. This allows the paraSOL centerpole to match the visual language of the yacht and integrate seamlessly with other Reckmann sun protection systems.

Our product benefits:

- Classic centre-supported parasol design
- Ideal for dining areas, tables and compact deck layouts
- Symmetrical shade coverage
- Lightweight carbon construction for easy handling
- Can be painted according to customer requirements
- Wind resistant due to integrated wind stabilizer
- Quick lock fitting for easy connection of the shade
- Removable battery light for illumination
- Various on-deck storage options

Features

Size and shape variants

paraSOL is available in different sizes and shapes to suit the layout of the deck. Custom dimensions and special shapes can also be realised for individual yacht projects.

Range of colours and fabrics

The canopy cover can be selected from our current fabric collections. Carbon and aluminium parts will be painted or anodised to match the yacht’s colour scheme. Stainless steel fittings are mirror polished or given a matt sandblasted finish.

Features

Socket with lid

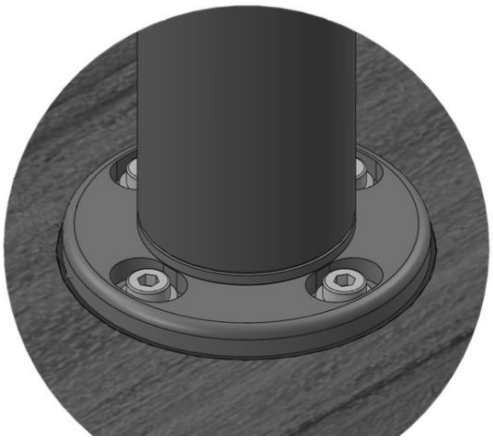

Socket without lid

Deckbefestigung 1: TwistFIT

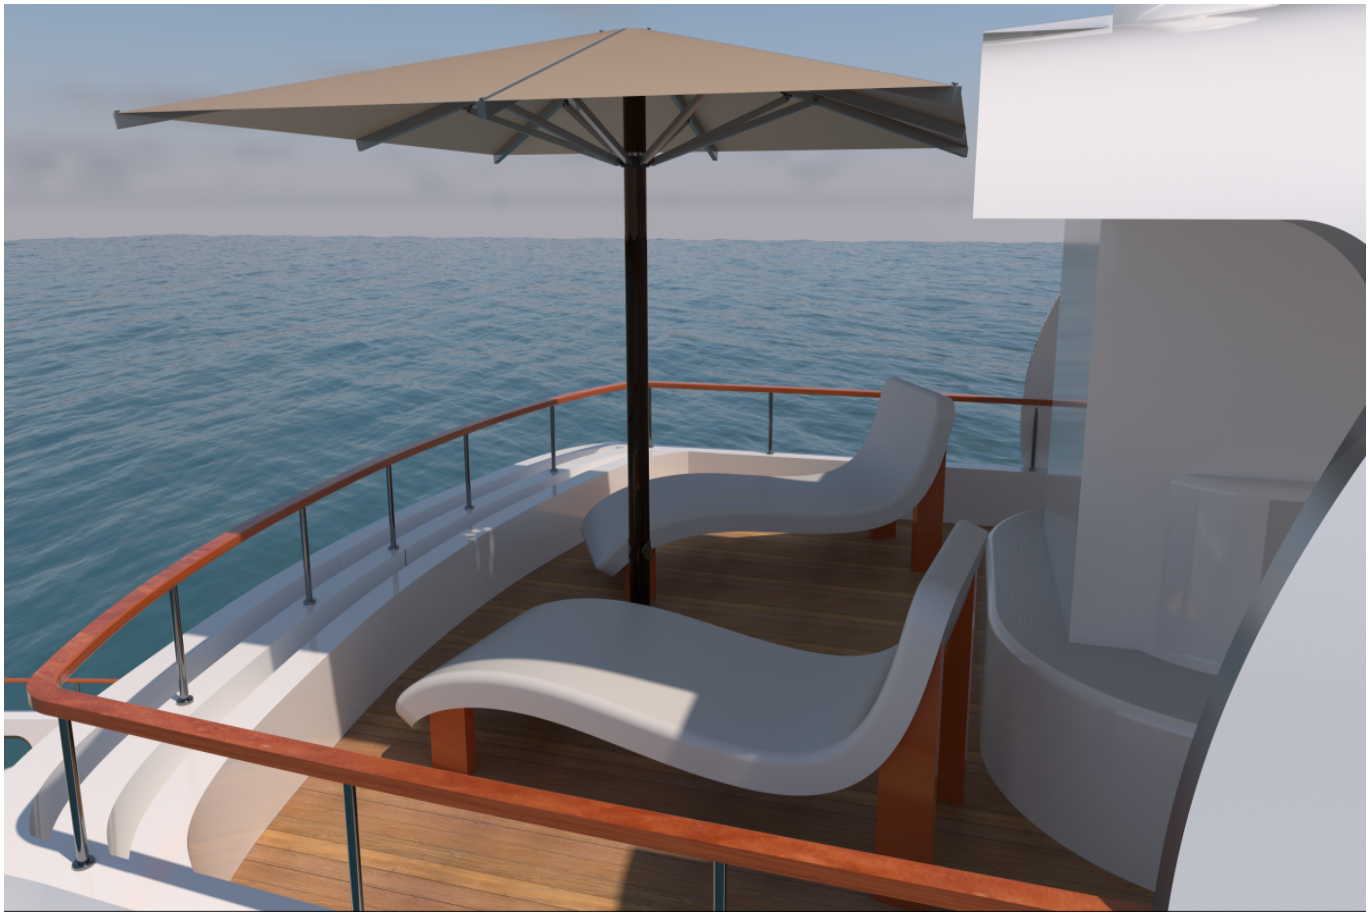

TwistFIT is our removable deck socket solution for paraSOL systems.

The bronze deck insert is permanently installed in the structural deck socket and receives the removable deck fitting, leaving a clean flush stainless steel lid when the parasol is not in use.

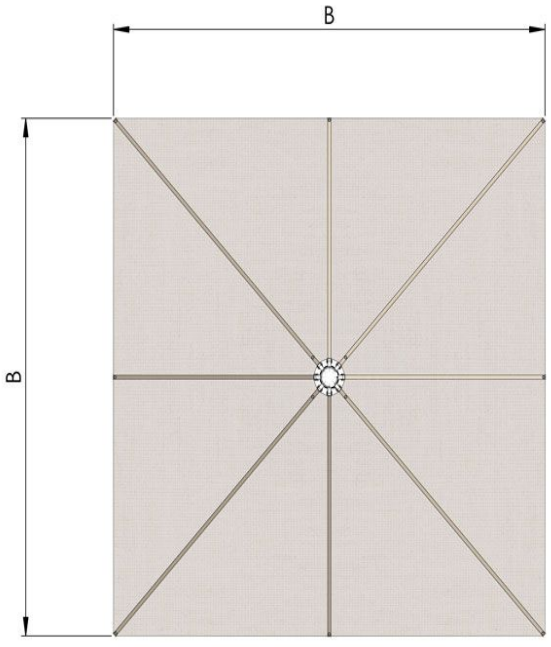

mounting option 2: fixed deck plate

The fixed deck plate is a simple and robust mounting solution for defined parasol positions. It is permanently installed on deck and provides a solid base pin for quick installation of the paraSOL.
