TTS-4/EYE

connection options	EYE - eye connection
purchase	1:1
material	Titanium
application	for removable stays (Code Zero and staysails)
max. work load SAILING	40 t
safe work load (UN)FURLING	19 t
break load (bl)	90 t
weight	7,20 kg
A	202 mm
d	38 mm
E (max. rope size)	45 mm
G	44 mm
W	40,50 mm

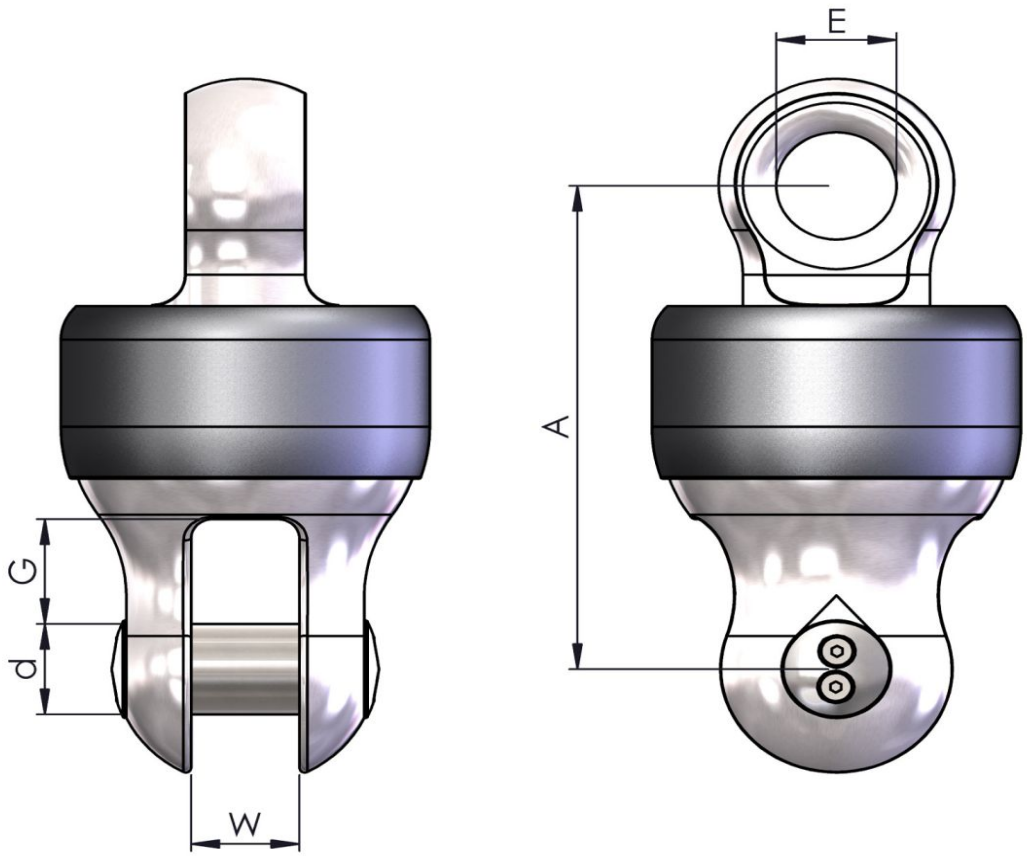

swivel with eye connection

The highly-compact swivel for foresail furling systems with torsionally rigid forestays are distinguished by their extremely low weight. For workloads of 12 tons or more, we make the swivels out of titanium. The smooth-running bearings ensure that the swivels can turn with minimal lag, meaning that the stay is protected from strong torsional stresses.

By using different top connections, Reckmann swivels are simply aligned to different requirements on board. The eye connection shows the simplest variants: there is the option of having an offset eye for lashing or with a straight hole for connecting a toggle.
