

CZ-SYSTEMS

POWERED BY PASSION

SMALL BUT CLASSY THE CZ FURLER

It is the details that make for a great experience – the same is true of sailing. We've always paid a lot of attention to detail. This approach is exemplified by our new CZ Furler, a turning padeye which is installed below deck. The CZ is available with either a hydraulic or electric drive, is corrosion-resistant and easy to set up, in the anchor locker for example. With its small dimensions, the CZ Furler is ideally suited for all code zero applications and allows even large sails to be furled quickly and reliably.

IN DETAIL: ADVANTAGES AND AND IMPROVEMENTS TO THE CZ SERIES

- 01 Custom – the TS Topswivel**
Customised for our code zero furler systems, we offer a range of swivels made from titanium or aluminum, all of which come with various connectivity options.
- 02 Out in front – the Code Zero Furler**
We offer hydraulic code zero furler systems which can be set up on the bowsprit, the outer end of an aluminum or carbon fibre boom pole with bulkhead loads of up to SWL = 4 t [4 tons SWL].
- 03 Simple – the top-down swivel toggle**
To furl spinnakers with the code zero furling system according to the top-down principle, a freely-rotating ring collar on the lower headstay is necessary. On request we can install this ring on another toggle. This means that the ring collar remains on the stay and the sail can be quickly attached and removed.
- 04 Versatile – CZ systems for structural stays**
The compact code zero furling systems can also be used for structural stays (forestays). The sail is then attached to the stay using soft hanks. To compensate for stay sag in the sails, these drives are integrated within the deck using a compensating ball bearing.

Model	CZ-4	CZ-8/8	CZ-8/50	CZ-8/315	CZ-16/160	CZ-32	CZ-64
max. Bulkhead load [t]	4	8	8	8	16	32	64
max. Speed [U/min]	100	100	100	100	100	100	100
Weight [kg]	3,8	5,8	10,5	13,54	42,4	53,4	71,7

POWERED BY PASSION

SPECTACULAR IMPRESSIONS. VISIONARY IDEAS. REVOLUTIONARY TECHNOLOGY.

All Reckmann products have one thing in common: Our need and desire to develop and offer you as our customer the best possible solution available on the market. It doesn't matter whether it's a standard product or a custom-made specialist solution. Whether it's designed for Regatta sailors, cruisers, super yacht customers or businesses in general. We want you to be satisfied. And it's been that way for more than 120 years ...

FOR SAILING YACHTS

- Headsail Furlers
- Boom Reef Systems
- Mast Roller Systems
- Rigging Hydraulics
- Mast Jack Systems
- Hydraulic Units
- Emergency Rig Cutters
- Accessories/Spare Parts
- Rigging/Hydraulics Service

FOR MOTOR YACHTS

- SAILTEC-Systems
- sunDECK
- sunFLIP
- Safety Rails
- proSCREEN
- slideShade
- sunHATCH
- proSPORT
- paraSOL

FOR ARCHITECTURE

- Shading Systems
(manual/automatic)
